

# ARYAN RASIWASIA

Software Engineer · AI Agents, Distributed Systems & LLM Infrastructure

Bengaluru, India | +91 88974 99568 | Aryanrasiwasia1818@gmail.com

linkedin.com/in/aryan1818 | github.com/aryanrasiwasia1818 | LeetCode: Lucifer0510 | Portfolio: aryanrasiwasia1818.github.io

## EDUCATION

Indian Institute of Information Technology, Allahabad

Sep 2022 – May 2026

B.Tech, Information Technology · CGPA: 8.10 / 10 (rising every semester; latest SGPA 9.29)

## EXPERIENCE

Intuit — Software Engineer Co-op (AI Engineer)

Bengaluru · Jan 2026 – Jul 2026

- Built the **DOD Assessor Agent** — a production LangGraph + Claude agent that scores GraphQL API repositories 0–10 across 8 compliance checks, running on **Intuit's first service-based MCP servers**; 178+ unit tests; cut LLM context **80% (175k → 35k tokens)**.
- Built **Money Hub**, an AI funding agent inside QuickBooks that reads a business's books and pre-fills the capital it qualifies for (grants, loans, tax credits) — **Top 3 at the Intuit Intern AI Hackathon**, presented to the SVP.
- Built **OnCall Assistant**, an autonomous incident-RCA agent across 8 systems (Splunk, GitHub, Jira), cutting triage from **30–60 min to under 2 min**.
- Delivered **74 PRs across 21 repositories** and 88 Jira items; **2nd — CMD+CTRL Cyber Range**; 6th of 56 — MXP AI Forum (Claude Coding Challenge).

Salesforce — Software Engineer Intern (AMTS), RADX

Bengaluru · May 2025 – Jul 2025

- Built **CodeFix**, an LLM-powered code-remediation agent that **cut fix cycles 80%** and lifted root-cause accuracy **88%** via the GitHub MCP Server with cross-repo execution-path backtracking.
- Automated PR creation with LLM-generated fixes and RCA summaries; earned a **return offer**; recognized as Agentblazer Champion & Trailblazer Ranger.

Tanla Platforms (Karix) — SDE Intern

Hyderabad · Dec 2024 – Feb 2025

- Engineered **Kafka throttling** for Google RCS webhooks — reliable in-order delivery of **millions of messages/day**; drove the RabbitMQ → Kafka migration.
- Built a distributed notification system (**+20% reliability**); Dockerized Kafka/Redis clusters (**~40% deploy & test time**).

Roaming Duniya — Software Engineer Intern (Full-Stack)

Hyderabad · Apr 2024 – Jan 2025

- Designed, built, and shipped the company website **end-to-end** (frontend, backend, deployment) as the sole developer.

## PUBLICATION

- A. Rasiwasia et al., “**PackChain: Blockchain for Circular Economy**,” Springer LNCS 16437, IHCI 2025, pp. 363–375 (**first author**). Permissioned DLT (Hyperledger Fabric) + hardened MQTT + tokenized deposit-return; 100 TPS baseline.

## PROJECTS

- RULS — Real-Time Chat Platform** (Spring Boot, WebSockets, Kafka, Redis, MongoDB): architected for **10M+ concurrent users** at sub-50ms latency with Kafka-based ordered delivery across multi-server deployments.
- NanoServe — LLM Inference Engine** (C++, Python): implements paged KV-cache and continuous batching for high-throughput, memory-efficient model serving.
- Matchd — Limit-Order-Book Matching Engine** (C++): price-time-priority matching with NASDAQ ITCH order-book reconstruction on a lock-free, low-latency hot path.
- Warden — MCP Agent Security** (Python): a guardrail layer for Model Context Protocol agents — tool-poisoning / prompt-injection detection, sandboxing, and least-privilege enforcement.

## TECHNICAL SKILLS

Languages: C++, Python, Java, Go, JavaScript, SQL, C

AI / ML: Machine Learning, LLMs, AI Agents, Model Context Protocol (MCP), LangChain, RAG, scikit-learn

Backend & Web: Spring Boot, Node.js, React, REST APIs, GraphQL

Distributed Systems: Kafka, Redis, WebSockets, Low-Latency, Concurrency & Multithreading, Microservices

Infra & Databases: Docker, Kubernetes, AWS, Linux, Git, CI/CD, OpenSearch, MongoDB, MySQL, PostgreSQL

CS Foundations: Data Structures & Algorithms, System Design, Operating Systems, Computer Networks, DBMS, OOP

## ACHIEVEMENTS

- Competitive Programming**: LeetCode Guardian (top ~1%, rating 2198), Codeforces Specialist (1593), CodeChef 3★ (1648); 1100+ problems solved.
- Hackathons**: Winner — OutOfContext (AI improving recycling efficiency 40%); Runner-Up — Code Red Hackathon.
- JEE Advanced AIR 6028; JEE Mains 99.7 percentile** (top ~0.3% of 1M+ candidates).

## LEADERSHIP

- Wing Coordinator** — Gravity (Technical Society, IIIT-A); **Head** — Inter-IIITA; **Secretary General** — IIITA Model UN; **Senior Member** — NewGen IEDC (E-Cell).
